Víctor Díaz Egurbide

Senior Full-Stack Engineer — Python, Cloud Architecture & Platform Engineering

Barcelona, Spain · hi@vdiaz.dev · vdiaz.dev · linkedin.com/in/victor-diaz-egurbide · github.com/VictorDiazE

Senior Full-Stack Engineer with 8+ years designing and owning production systems end to end, with particular depth in Python backend architecture and cloud integrations at enterprise scale. Architected and delivered 5 enterprise Python/AWS integrations processing high-volume, multi-market data pipelines, alongside full-stack ownership (backend, frontend, CI/CD) across 30+ production projects. Postgraduate in Artificial Intelligence with Deep Learning (UPC School), applying AI-assisted engineering workflows in daily production delivery.

EXPERIENCE

Senior Full-Stack Engineer / Tech Lead — Rocket Digital, Barcelona 2021 – Present

- Architected and led 5 enterprise-scale system integrations (Python on AWS Lambda) with catalog/data processing pipelines via SQS, handling high-volume, multi-market, multi-language data flows in production.
- Technical lead on 30+ production systems for enterprise brands across EU and MENA, owning architecture decisions end to end — from cloud infrastructure to frontend delivery.
- Own CI/CD pipelines (GitHub Actions), technical standards and code quality across the engineering team's project base.
- Built full-stack applications with React/Next.js/TypeScript on the frontend and Node.js/Python backends, including custom logic on transactional and payment flows.
- Introduced AI-assisted engineering workflows (Cursor, MCP, n8n) into the delivery process, reducing repetitive engineering time across the team.

PHP Full Stack Developer — Factoria Creativa, Barcelona 2021

- Developed and implemented ecommerce sites, custom themes and plugins from scratch.
- Owned client communication and project management through delivery.

PHP Developer — Slice Group, Venezuela 2017 – 2019

- Implemented and assessed technical SEO best practices across client sites.
- Diagnosed and resolved reported platform issues, integrating new solutions into existing systems.
- Developed and implemented WordPress sites, themes and plugins.

TECHNICAL STACK

Backend & Cloud: Python · FastAPI · Node.js · AWS Lambda · SQS · Docker · CI/CD (GitHub Actions) · REST · GraphQL

Frontend: React · Next.js · TypeScript · Hydrogen

AI & Automation: LangChain · PyTorch · Cursor · MCP · n8n

Ecommerce Platform: Shopify Plus · Liquid · Checkout UI Extensions · Shopify Functions

Growth: GA4 · GTM · Technical SEO

EDUCATION

Postgraduate, Artificial Intelligence with Deep Learning — UPC School — Universitat Politècnica de Catalunya · Grade 8.1/10 2024 – 2025

Electronic Engineering, Telecommunications — Universidad de Falcón 2015 – 2019

LANGUAGES

Spanish (native) · English (professional working proficiency)
